

Rabbit Resistant Plants - Illinois

The plants listed below have been found to be resistant to rabbits. As a rule, rabbits don't enjoy plants that are very aromatic, have tough/leathery leaves, or have spines. Please note that an extremely hungry rabbit may eat plants that it is not normally fond of.

Achillea (Yarrow)
Actaea (Baneberry)
Agastache (Hyssop)
Allium (Nodding Onion)
Amsonia (Eastern Bluestar)
Anemone (Canada Anemone)
Aquilegia (Columbine)
Aruncus (Goat's Beard)
Asters
Athyrium (Lady Fern)
Cimicifuga (Black Cohosh)
Digitalis (Foxglove Beardtongue)
Eryngium (Rattlesnake Master)
Eupatorium (Joe-Pye)
Filipendula (Queen of the Prairie)
Geranium (Wild Geranium)
Helianthus (Sunflower)
Hypericum (St John's Wort)
Iris (Blue Flag Iris)
Mertensia (Virginia Bluebells)
Monarda Fistulosa (Bee Balm)
Packera (Prairie Ragwort)
Polygonatum (Solomon's Seal)
Rhus (Sumac)
Rudbeckia (Black-Eyed, Brown-Eyed Susan)
Sedum (Wild Stonecrop)
Silphium (Prairie Dock)
